

Operating conditions

-  atmospheric
-  at pressure
-  blanketing and/or sterile

Capacity

-  up to 3.000.000 liters

Structure

-  inclined plane bottom on reinforced concrete base
-  inclined plane bottom onto selfsupporting base

Temperature control

-  high-efficiency pressed wrinkled jacket

Agitation system

-  lateral
-  vertical
-  eccentric

Washing systems

-  rotating/static washing balls
-  lateral/bottom washing
-  washing turbines
