

data sheet

Vertical storage tanks with
insulation or simple wall type

Operating conditions

-  at pressure
-  blanketing and/or sterile

Capacity

-  up to 200.000 liters

Structure

-  conical bottom onto legs
-  inclined plane bottom onto legs
-  conical/dished bottom on skirt

Temperature control

-  high-efficiency pressed wrinkled jacket
-  2"-3" half-pipe

Agitation system

-  lateral
-  vertical
-  eccentric

Washing systems

-  rotating/static washing balls
